

AMERICAN HOMELIFE ®  
 aBook: Ancient Age basic survival

AMERiCan Homelife ®  
 americanhomelife.org  
 -citizen culture-

It is easy to be amazed today and forget our human home with homelife. Information generation is living the healthy, modern, informational common age now from AMERI Ages culture of foundational forbearers whose contributions find ideas/universal principles in universal experience that become a part of our cultured human environment, human home with homelife:

Ancient Age.....	human famili <b>basic homelife</b>	4000-500BCE
Meditation-medieval Age	behavior <b>social homelife</b>	500BCE-500CE-1400
Education Age.....	science <b>physical homelife</b>	1400CE-1700
Republican Age.....	world citizen american <b>civil homelife</b>	1700CE-2000
Information Age.....	co-creating <b>universal homelife</b>	2000CE- today

Today, real and virtual communities intercreate. We deal in human quality of life issues. We want survival in pacific & universal, free & open public space forums for rational real discussions that take shared problems to solutions. We stand today on shoulders of human forbearers' ideational gifts [some named, most unreferenced]. Thanx! It's our human home. In polite manner pause, notice, and give thanx for forbearers in good global gifts given. With humans we're american homelife.

Ancient Age is basic homelife in Ancient human famili gifts from Five Old Worlds. Religions from middle famili are Vedic and BibleTorah [OT-NT-Koran] with clergy today. How do global savages, our Ancient ancestors, change selves and their chaos-destruction-disorder to achieve basic citizen culture in cultural democracy's human heritage to higher level of conscious living for me? Ancient priests' heaven home sees eternity with intervening God of miracle in personal otherworld afterlife. Divine clergy help me work hard to get to heaven. Ancient peoples' human home sees eternity in unfolding awareness-expanding opportunities-continuing human life.

Basic homelife is human survival found in universal principles of natural law & order universal experience. Basic homelife is Ancient with african cradle human potential and Egyptian Abydos 4000BCE-641CE role model for traditional nurturing family; literate middle famili merchant vitality in economic giving/receiving/writing [alphabet Byblos 1500BCE affects Classicist] commerce; european everyday person without abuses/ with everyone else everywhere worldwide freely-safely-openly talking around bonfire [the public space conversational agora/forum] for Truth; renien famili literate/ natural culture beginning in Chinese Emperor Fu Shi announcement of 1<sup>st</sup> principle yang/yin equality 2900CBCE [Life is good/bad, thought/action, ephermeral/eternal, day/night always joined.]; and inamerican famili farmer intention 3000BCE survival in hunter/ fisher/ maize farmer and in ecological awareness.

Maize farmer, native american, meditating Nature's reason finds the '3Sisters' conservation. Ancient human famili finds basic homelife, or basic citizen culture. Co-creating with nature home, people find natural laws that make our human home environment more safe and real for selves and progeny. Heaven home intervening God's revelation of clergy story and human home/nature home Nature's reason of human story are different strategies to timeless Truth. Meditating/asking Nature's wonder, natur-cultur-all Ancients discover natural laws physical in global firebringers and social in ideas. Praising /praying God's miracle, supernaturalist Ancients have heaven home.

Freeing people from short lifespan and daily hours of drudgery in chores for simple existence, technology drives productivity and gives everyday people time to think & feel, do & recreate more. We wonder with the popular science writer Stephen Hawking in his book, A Brief History of Time, 'whether we can believe that we live in a universe that is completely self-contained and without beginning or end'. What a question for natural critical enquiry! Adventure frontiers are individual/ communal in endless fields of carefully chosen endeavors that include biotechnology/ laser/ telecommunication/ etc. In 2001 MIT University teachers successfully lead an amazing global, cooperative community of frontier thinkers in sequencing our human genome. Fresh hydrogen fuel cells of clean renewal energy to meet world energy needs may be forthcoming. Hope is less domination and more cooperation in teacher/clergy agendas for the common good.

*Who are our native continental ancestral familiis?*

Who are ancient ancestors who have given their progeny, we 'ameri' [all people], their physical and cultural living legacy of human home with homelife? For common community in cultural democracy let's look for our first good global gifts given from native continental ancestral famili. It is our lives, our very physical existence. Ancient human famili genetically is living DNA in me. Respectful of my Ancient famili, I am their living continuance. I am a part of our human famili.

*Ancient famili- human famili- we the people- we 'ameri'*

'a' is african famili. The native african is Negroid from continental Africa of many nations.

'm' is middle famili. The middle famili is from the middle of the world, South Asians, or midasian, who make up our major ethnicities. Moniker these ethnicities with ME-MI-MA:

ME- **M**iddle **E**asterner- joins curly hair Negroid/Caucasoid in N. African/Asia Minor ME

MI- **M**iddle **I**ndian- joins Negroid/ Caucasoid/ Malayan in MI ethnicity human famili.

MA- **M**alayan- the Pacifican-Austronesian Ocean people  
- Malay Peninsulan joins Malayan & Mongoloid.  
- Malay Pacifican is Malayan

*(including Native Hawaiian and Native New Zealander).*

'e' is european famili. The native european is Caucasoid, NW Asian, of many nations.

'r' is renien famili. The native renien is Mongoloid, NE Asian, of Korean/Japanese/Chinese nations.

'i' is inamerican famili. The native inamerican is Indian American or native american, Mongoloid/ Malay plural famili. First Americans arrive over 40,000 years ago and today have changed from tribes to literate nations. The inamerican is first inhabitant of South America, Central America, the Caribbean, and North America (*including Eskimo*). They have struggled for human famili survival and won with literate age dignity social history in contributions memory from inameircan nations.

We the people [we ameri] are originally Asian. Why? Before humans there is one land, Ancient Asian land called Pangea. Pangea breaks into continents from which we have our Ancient human famili of african- middle- european- renien- inamerican. From a-m-e-r-i Old Worlds we ameri are all people. Continental plates shift and move land. We shift and move to new homelands.

We are the good globalization when we respect family/famili, that of my own and neighbors. Good globalization begins in self-respect and extends to US all. There is not one famili of nations who has not given at least one good idea to advance our human home in homelife.

<sup>native african</sup> The native african ancestral famili is <sup>'african'</sup> 'african'. The african famili is native to continental Africa and lives global today. We ameri, modern africans, are well traveled, educated, and interconnecting.

<sup>Native S Asian</sup> Native S Asian ancestral famili is <sup>'middle'</sup> 'middle'. The middle famili is native to the middle of the world South Asia. We ameri are Middle Easterner {ME}, Middle Indian {MI}, and/or Malayan {MA}.

<sup>Native NW Asian</sup> Native NW Asian ancestral famili is <sup>'european'</sup> 'european'. The european famili is native to continental Europe and lives globally today. We ameri, europeans, are traveled/ educated/ interconnecting.

<sup>Native NE Asian</sup> Native NE Asian ancestral famili is <sup>'renien'</sup> 'renien'. The renien famili is native to continental NE Asia and lives globally today. We ameri, modern renien, are well traveled/ educated/ interconnecting.

<sup>native american</sup> The native american ancestral famili is <sup>'inamerican'</sup> 'inamerican'. The inamerican famili is native to continental Americas. We ameri, modern inamerican, survive as Ancient human famili.

Five Old Worlds become one world famili, our human famili. The american character joins a world of ideas and human famili in common citizen culture remembrance, not dismissed/ trashed. Reality is our global traveling <sup>universal</sup> Information generation thinks nothing of airplane flight or living in another country to secure better economic conditions. With one human famili I'm a '1famili' family. If for example I'm ameri, I'm a '2famili' person. Ancient famili is human heritage given at birth. You are family/ famili, too. Are you 1famili? 2famili? 3famili? 4famili? 5famili?

We ameri are humanhood, living caring/sharing/understanding fatherhood-motherhood-childhood. Ancient forbearers' first good global gift given me is my native continental ancestral famili/is. Human heritage from Ancient famili has <sup>basic</sup> homelife awareness, or basic citizen culture. Basic homelife is human famili and each famili's special contributions to conscious human survival. Always, affirming timeless Truth, I put my truth in Truth and try to find the human story in natural culture natural laws of universal experience we from Ancient Age affirm in living better life for ourselves and children. In a merry humanhood I am 'ameri' from Ancient human famili. Later in Meditation-medieval Age will I be *world humanity* [<sup>'ameriren'</sup> 'ameriren' because 'ren' is our very first word for 'humans with humanity'] in second discovered great ren reciprocity principle, the brotherhood of man. In Republican Age I am *world citizen* [<sup>'american'</sup> 'american' because I can think/feel and do <sup>rational individual</sup> new republicanism with Old American Franklin/ Lincoln and american Thurgood].

Should I be Yemenese & Nepalese, Iraqi & Israeli I am only 1famili of 4 nations. Why? I have only one native continental ancestral famili, the multi-ethnicity 'middle famili'. I am four nationalities-national heritages-national peoples-nations. These nations are me whether I live in this country or that. These nations are me whether I speak this language or that. These nations are me whether I'm this religion or that. These nations are me, my human heritage of forbearers. This is a basic homelife memory/ remembrance. My family/famili of nations I keep wherever I go, learn, work, enjoy **my private home**, and care in public service **our public home** citizen countrymen & women.

It is for me to cherish my family/famili, not you. It is for me to cherish my human heritage family/famili of nations, not my divine heritage clergy. It is for me to cherish my family/famili, not my constitutional rich royals- my godly friends- my public citizenry- my chosen endeavor communities and good friends. In simple way I enjoy and explore my human famili of nations. My human famili of nation/s lives in me in memory of something beautiful/ strong done for US all in good idea/ principle shared/cared/understood. This is my joy, my literate age dignity. My human famili of nations has foods/ ideas/ stories for me to simply enjoy/ explore/ continue in moderation and pluralism. Everything natural and meaningful we are to Ask honestly: Seek courageously: Knock temperately... even family/famili food-ideas-joy! The basicAncient gifts of afrifamily-midlmerchant-euroenquirer-rennculture-inamfarmer from world famili forbearers encourage me to be a contributing person. To dday! I want to find an original idea/principle or social historical story or loved person that is mine from my human famili/s of nation/s. Famili Food Feast on VFamili thansgiving New DDay welcomes human family/famili celebration for the good globalization in good contribution on 25<sup>th</sup> of dec-mar-jun-sep. **Humanhood home** in homelife includes me and mine. In our Information Age universal co-creating literate people have the United Nations 2001CE encouraging universal literacy for an informed future human home. Literate, we can have larger horizons of mediation and asking adventures for wonder, for progress, for better economies, for happiness among all in human famili community.

*New Native and the Partisan*

'New native' puts one famili above another. 'The partisan' puts one nation above another. These are survival strategies. You either are or are not a 'native' [100% one famili]. There are different joining ceremonies, some religious some cultured, for the new native as well as the partisan.

Example: My dad is renien **Japanese** U.S. from his mom and inamerican **Mohawk** from his dad. My Japanese is shogun and had rich resources in both land and wealth. My Mohawk is NY strong. My mom is european **Dutch-English-French-Norwegian-Welsh** U.S. from her mom and european English-**German-Scot** U.S. from her dad. Mom's father is Pilgrim. Mom's mom is 'Ark&Dove' Maryland. Both grandmother/grandfather take sides in the North/South Civil War. In short I'm a 3famili family. I'm new native. I've choose to join the inamerican famili circle. I have their 1/7<sup>th</sup> requirement for 'new native' inclusion with my dad's dad. It's good to have a human heritage support community. I'm the partisan. As partisan I'm choose Mohawk over Japanese-Dutch-English-French-Norman-Welsh-German-Scot. I don't want U.S. citizenship. I join Mohawk nation, within U.S. country but an independent nation-state. I live on Mohawk lands where food/ shelter/ education κ-PhD is provided by U.S. taxpayers in reparation for past abuses to my native american forbearers. My nation is Mohawk after studying with Mohawk teacher and walking in Mohawk joining circle ceremony. Chosen is inamerican famili and Mohawk nation.

In american homelife VFamili thansgiving friends I participate for wholesome human heritage celebration. I choose to give some time and remembrance to my 3famili/ 9 nations family. It's easy enough with basicAncient famili contributions. My 9 nations I can do, too. Wholesome age dignity is social historical memory with me and mine simply-easily-cheerfully. This is mine, and I will continue in it. I give human heritage honor to my wife's family/famili, too. Culturally human plural and gifted, how can I keep from her what I want for myself? Know your history. Then, you know your dignity. Human famili togetherness strengthens our good bonds in good globalization of reality and good remembrances that begin under my own roof. The fragile fabric of humanhood lives on in me and my progeny with understanding and common good activities.

! How U.S. new republic citizens and clergy care to state nation of Israel, giver of God revelation Bible stories! Why land of **Ancient** Philistine, [modern poor Palestinians] when with so many inamerican nation states within U.S. country, what is one more? Safer than in Mideast, stating nation of Israel could be created within U.S. U.S., established 1787CE, is a **young**- wealthy-immigrant democracy. AMERICAN Homelife © 2003 aBook: Ancient Age basic survival americanhomelife.org p. 5

***'Ancient Famili Basic Be'***

<i>Ancient AFRI</i> happy ....	be potential family!

<i>Ancient INAM</i> healthy...	be maize farmer intent...ecology!

***'For Timeless Truth'***

Timeless Truth permeates existence in atom and cosmos, living and non.  
For Timeless Truth clergy story tells supernatural intervening God revelations.  
For Timeless Truth human/teacher story tells natural intelligent Nature's reason.  
Its there another story humans have yet to tell?

***"Back to Basics, Baby!"***

*Love well my family/famili nurturing dear.*

*Literate merchant vital ... be here.*

*Honest my mind!*

*In principle, brother!*

*In joy... home planetary mother!*

? ? ??? [ Sing words to tune 'Rock-a-Bye Baby'. ] ? ? ???

## 'Suitably basic Ancient'

-a social historical small story-

4000BCE-641CE

Family Diamond ? happy.

*Affirm african human cradle potential.*

Ancient continental African private family potentiality is publicly supported by Egyptian towns having their own mascot animal and unique godly family triad [not natural cultural representative of idea for model traditional nurturing family]. Most famous god-family is Abydos. Family diamond? happy combines mom-dad-youth triad on top with forbearers' triangle memory on bottom as Nile River reflects pyramid. Living family triad is mirrored by ancestral waters' of time in human continuance. Add forbearers to family triad, as pyramid is reflected in river of life in Life. Ancient is african cradle of human potential. Egyptian Abydos is made to help human understand we die, but have continuing life in becoming pilgrims of Truth and Justice and nurturing well our children.

From savage to civilized human family our progress comes from changing adultery to the nurturing parent/ child commitment for our eternity in human continuance. New knowledge that dad and mom in cooperation make child (consequence) begins responsibility in the parenting commitment. Father takes responsibility, and family begins. Fathers realize for the first time that they contribute to making their child. Contemporary world citizen dads now realize mom, too, contributes DNA in her human egg. Child is their love in an eternity of human survival. Private family is defined on continental Africa in Egyptian Abydos triad, plan for potential happy fatherhood-motherhood-childhood.

For potential eternity in otherworld afterlife pharaoh's pyramid is launch pad sending his soul to the stars. In star ship of mummy wrappings, pharaoh is safely held in his journey to the stars. The North wall vent's outer wall did telescope 'the dark still point', called the 'Indestructibles'. Pyramid's purpose is to help king journey among the stars... a Cape Canaveral of Ancient time. Stone triangle pyramids are impressive, but we miss seeing the real and living pyramid of dad-mom-youth triangle reflected in Ancient Nile waters of Ancient **my** family human **home** definition. Sky and earth join in supernatural eternal pharaoh's immortality. Natural family joins in on-going human heritage home.

Socialized by private family and nurtured on good ancestral contributions to human home, youth is made ready to enter public community. As ancestors' contributions make launch pad for happy private family, my private family is launch pad for our happy public community. Water mark in manhood and womanhood is having ones own private family in loving respect that taboos adultery for childhood/ parenthood happy potential that affects humanhood.

1500BCE

Merchant Club ? wealthy

*Make middle merchant vitality.*

Ancient middle merchant vitality is the literate global merchant who travels the earth to give and receive global commerce/helpful merchandise/profit from personal effort. To better communicate and keep their records of trade merchants create and use new alphabet. Sumerians develop a phonetic alphabet 3500BCE that changes to our modern alphabet, descended from the Phoenician linear quasi-alphabet, first attested at Byblos 1500BCE.

Ancient middle merchant gives and receives vital/ global/ alphabet literate economy. Monopolizers of natural resources, slavers, dealers of illegal drugs and drug users abuse middle merchant vitality, being rather merchants of death.

From savage to civilized human, our progress comes from changing mighty chaos in violent reality, warrior brutality, and priestly bloody rite to real person giving/receiving/literate vital trade. Middle merchant is an unofficial club with

code of conduct: mercy to stranger/ global trade/ quality merchandise/ meaningful exchange of goods and services. In this very physical, global merchant activity, horizons expand, perspectives widen, and experiences expand. Middle merchant establishes human environmental home of safety to all travelers the world over. Ancient middle merchants are MA, MI, and ME.

Middle world merchant engages in good global networking for enterprise and wealth. Middle merchant expands quality of life for all in better safety and economy. He's an aidgiver to distant stranger at hand and merchants who may suffer-- random robbers' bloody acts of violence, shivering snows of tall mountain peak, and/or thirst in heat of endless dry desert-- all to come and bring delightful/healthy goods and new skills in enterprising effort of profit, for wealth. He is the Ancient's original hardworking good capitalist, not royal landlord monopolist who does nothing for his income and takes over everyone's natural resources. To a merchant another merchant is not weird, but wonderful. Merchants welcome their differences. Most merchants have better things to do than savagery, killing child/ animal/ neighbor. Merchant manners and skills in literate vital global commerce stop savage bloody rites of naturally cultured and supernaturally religious. Vital merchant isn't merchant of death/ die/ drugs but is rather entrepreneurial/ entertaining/ merciful. Savage Archaic World chaos with magnified, skewed visions of bloody sacrifice abuse is changed to Old World Ancient Age vitality by merchants' global vision in hard working entrepreneurial early capitalist merchant purpose. May my giving be of my son/daughter, of my cattle/sheep, or of myself with vital merchant? What say you?

Vital merchant is not merchant of death, for he trades in skills and products that bring good life to all. Vital literate merchant brings products that promote all life rather than destroy life. In your choice of vocation for wealth and avocation for fun, remember Ancient middle merchant story.

Fiery Heart ? bonfire asking  
*Enquiry of european intelligent.*

Ancient Age bonfire enquirer discusses real issues openly/safely/in communities. Intelligent humans, including european famili, enquire about world around them to know real truth, share problems, and bring them to solutions. Around survival fires and in fiery conversations of Ice Age survival they are occupied until socialMediation Age when european famili becomes home of Thales science and Solon democracy with Classical Greek city-states. Turn the heart ? upside down for candle flame in fiery bonfire warmth and friendly open conversation over real issues cared/shared among everyday intelligent people.

2900BCE  
Fiery Heart ? principled  
*Respect renien culture.*

Ancient royal Emperor Fu Shi delights US all in human home of homelife. He announces equality principle yang-yin 2900BCE. This is the arrival of culture. Culture is natural taking its universal principles/ideas from natural law & order universal experience. Good/ bad, thought/action, ephemeral/eternal, day/night is eternally joined in Nature: This is the yang/yin principle, expressed but seen and lived in many manifestations daily. Yang/yin is important to human memory-human home history- human heritage because now people understand culture's natural approach to understanding real truth. Yang/yin principle in culture later taken religiously in Persia becomes the Zoroastrian religion, then nation Israel Biblical prophets write the devil. The heart ? of the matter is principled people take ideas to heart when they live them/ embody them/ enhance them/ expand them. People hearted human heritage is natural, rational, cultured, and always open to safe free friendly discussion for better understanding.

3000BCE

Spirit Spear ? healthy

*Intent of inamerican farmer.*

Ancient intent of hunter and fisher is continued in maize farmer for survival.

Stewardship and cherishing of nature home in environmentalism is obvious to native inamerican. Thunderbird or eagle is special and requires clean air. Eagle feathers are for men of brave deeds and cherished chiefs. Inca terracing techniques, Iroquois soil fertilization [corn-squash-bean of 'Three Sisters'], & Inuit fisher are world famous. From Paleolithic hunters we become Neolithic farmers.

From savage to civilized human, our progress comes from changing simple, fearful worship of elemental forces to awesome appreciation/wonder, agriculture, and sincere stewardship of our earth home world. Taking care of nature home is an inamerican legacy.

First Americans are serious about our natural environmental home and champion earth stewardship. Environmentalism is an active on-going effort that is consistent with Ancient Age tradition where people truly appreciate Nature. For example, their local clear fresh water spring has a spirit as does everything that lives. Living we are all cousins connected in DNA, so why not too in simple spirit of living life ideas? There are many spirits and beliefs about the spiritual realms as well as the otherworld afterlife.

North American environmentalism is seen with Iroquois who increase fertility of corn agriculture by planting together seeds of the famous 'Three Sisters', corn/ squash/ bean. '3Sisters' take care of nature home: Litterers abuse nature home. Environmentalism is seen in South American Inca who makes conservation efforts with many corn varieties on his famous terraced, crop-planted, tall Andes Mountains. Inca agriculture has more abundant harvests than any new immigrants are able to achieve. Arctic North America is home to inamerican Inuit whom we call Eskimo. Inuits are great fishermen using everything and wasting nothing. They are the inspiring and original reduce/ reuse/ recycle environmentalists. Here, savage Archaic World chaos in uncaring or ignorant use of earth resources is given Ancient culture with a native american environmental definition for careful harmony with all living things because they too like you have soulful integrity, truthful life.

First immigrants learn to live in tundra/ forest/ plain/ desert/mountain/ canyon/ coastline/ lakeshore/ valley. First Americans invent new weapons and develop new techniques to hunt/ farm/ forage/ fish. Natural medicines come from what the earth provides. Dwelling is windbreak/ tepee/ igloo/ long house/ apartment building. Water craft is made for placid rivers or killing whales in the ocean. Clothing comes from environment in cured skins of animals and even woven bark of trees. Tools are very important and are made from rock/ wood/ bone/ copper. Pottery/ basketry/ blankets come from nature home in raw materials.

Conservation is daily activity we do in stewardship, today. Begin by replacing ugly defacements with beauty and attending to our own pollution with strong clean-up efforts that reduce/ reuse/ recycle. City dweller can do active environmentalism by putting trash in receptacle, recycle plastics/ papers/ batteries/ glass, conserve on energy, buy organic produce, buy fuel efficient car, use alternative to chemical pesticides on lawn, shop with ones own shopping bag, clean spaces of private home, take action against local environmental polluters, visit and support your parks, organize a community group to clean up a local highway/ beach/ river/ park, etc. Clean renewable energy sources are needed for peace over war and sweet nature home. Then and only then, will we sore in joy with the thunderbird. Spirit spear ? represents spirit of new fresh grass, thunderbird/birds, healthy clean air, and life around us all connected in DNA and in social spirit.

Ecology with inamerican we affirm. Some hesitate to understand Charles Darwin or say all species of organisms arise/ develop through natural selection of inherited variations that increase individual's ability to survive/ reproduce. 'I.D.' [Intelligent Design] fundamental religionists believe Darwinian evolution is ungodly and can't produce complex structures. AMERICAN Homelife © 2003 aBook: Ancient Age basic survival americanhomelife.org p. 9

*'famili weekdays'*

Most weekdays are Norse God named. World citizen culture, american homelife, creates relevant 'Famili Weekdays'.

**Affirm Abydos: africanDay** [Mon.]... Ancient gift of **a**ffrican famili [**Abydos family**], is human cradle potential later in Egyptian tradition nurturing family. It's a *family potential respect* truism for dedicated parents confident and happy, nurturing and holding their child. So, africanDay Monday is dad-mom-youth family triad. To this add human forbearers who contribute to human home environment. In Ancient Age basic survival continental African Egyptian towns have different public triad families as role models. A different family is found in each town square. Among all these triad families Egyptian Abydos is most loved. Ancient Africa's Old Egypt town centers with family triads give strong traditional nurturing family role model to human self-discipline, family love, fidelity, and potential of loved/respected child. Ancient Egyptian triad family and Pyramid Text write taboo on adultery, preparing parents to cherish and care for their children's potential. Pimp/ prostitute/ adulterer abuse the Abydos even now.

**Make money: middleDay** [Tues.]... Ancient gift of **m**iddle famili [**alphabet merchant**] is literate/ vital/ global merchant giving, receiving, and writing alphabet and numbers for trade and commerce. In *vital literate merchant respect* is literate people economy that is not shoddy/ hurtful/ criminal trade nor commerce. So, middleTuesday is vital merchant day. Merchant manner is merciful to stranger and literate to record activities. A traveler he may need a helping friend. His merchandise is helpful. He participates not in bloody rites religious nor cultured for he has better things to do, like make money. He is not the bad merchant of death/die/drugs/defeat/destruction. He is the vital merchant of mercy/manners/good merchandise/healthy entrepreneurialism. Ancient middle famili encourages US all in cultural democracy to be alphabet literate/alive/vital/engaged.

**Enquire earnestly: europeanDay** [Wed.]... Ancient gift of **e**uropean famili [**bonfire enquirer**] is intelligent questioning people willing to learn the real truth. Bonfires are the good fires that give warmth in Ancient Ice Age and welcome for gathering of people sharing public space and openly discussing issues of importance in safe community. Native Continental europeans are sparse in number, so they naturally give greater importance and value to each person and are more favorable to listening to everyone's viewpoint. All life is intelligent, especially every human life. In *intelligent human enquiry respect* we have hope for better answers to real problems.

**Respect ren principle: renienDay** [Thurs.]... Ancient gift of **r**enien famili [**yang/yin cultured**] is the arrival of natural culture in equality principle *yan/yin* announced by Chinese national Emperor Fu Shi 2900BCE and written. People do things for different reasons. When one do things to please intervening God\_\_\_, you are supernaturally religious. When one does things for the principle of it, you are naturally cultured. China is the home of culture from Ancient Age with Fu Shi's announcement. Are you...religious?... culture?... religious & cultured? What universal principles do you choose to live or embody?

**Invite invironment: inamericanDay** [Fri.]... Ancient gift of **i**namerican famili [**maize farmer**] is survival and environmental intent of farmer/ fisher/ hunter who naturally cherish nature environmental home. *Nature home farmer intent respect* makes possible a healthy planetary home for person and progeny. So, inamerican Friday is sweet nature home. In clean air native american finds birds/thunderbirds and shoots arrows to kill game. In clean waters native american fishes for food to feed his family. Caring conservation and physical survival, beauty and strength native americans are Iroquois with '3Sisters' [corn/bean/squash], Inca terracing, Inuit fishing, and more. From Paleolithic hunter/gatherer the inamerican famili moves on to becoming the Neolithic farmer who cares for crop and land, joining the world famili in farming.

**“Pacific Peace”**

-Visualize continents of independent country families around Pacific Ocean in pacific public space for rational discussion of real issues by patient people for intercreative and productive solutions to problems.

It’s a merry world WITHOUT ADULTERY. Affirm african human cradle potential and Egyptian family Abydos.  
**Embody** south **Pacific Peace**, strong/stable *ameri* me.

It’s a merry world WITHOUT POVERTY. Make/ receive vitality with alphabet *middle* merchant.  
**Embody** west **Pacific Peace**, wealthy-walking-working worldwide *ameri* me.

It’s a merry world WITHOUT SUPERSTITION. Enquire bonfire Truth with everyone & *european*.  
**Embody** NW **Pacific Peace**, noticing & natural wondering is *ameri* me.

It’s a merry world WITHOUT BAD PRINCIPLES. Respect culture in yang/yin equality principle with *renien*.  
**Embody** NE **Pacific Peace**, neighboring & equality energizing is *ameri* me.

It’s a merry world WITHOUT POLLUTION. Involve self in conservation intention with *inamerican*.  
**Embody** east **Pacific Peace**, environmental/ecological & healthy eater is *ameri* me.

**“In a merry peace & thanx”**

(New word ‘*ameri*’ is ‘all people’: We are human famili. We are all people.)

In *ameri* peace & *thanx*..... **a**ffrican cradle, Egyptian *triad true* .  
In *ameri* peace & *thanx*..... **m**iddle merchant *here* .  
In *ameri* peace & *thanx*..... **e**uropean *ask* .  
In *ameri* peace & *thanx*..... **r**enien *notice principles* .  
In *ameri* peace & *thanx* ..... **i**namerican ‘*X*’ *kiss* nature home.

**“Famili Weekday Rhyme”**

[*mon*]. ***africanDay, love family true.***

<i>'Our Merry Famili's Ancient Basic Traditiosn'</i>	<i>historical note:</i>
aFamili ... cradle FIDELITY.	Ancient W. Europe's '4 Leaf-Clover'
mFamili ... merchant FORTUNE.	and
eFamili ... enquirer Truth.	Ancient China's '3Lucky Men' + 'Double Happiness'
rFamili ... culture FAME	Are pre-literate teaching tools in Ancient basics:
iFamili ... farmer HEALTH.	FAME-FORTUNE-FIDELITY-HEALTH

Hallmarks of expanding human consciousness come over long human home experiences saved in AMERI Ages beginning from Ancient Age. Ancient famili, human famili, give US all in cultural democracy basic citizen culture, basic homelife. Home of human cradle is Africa. Kenya's homo habilis skull is 2.5 million years. China's Peking Man is 460,000BC. Java's homo erectus skull is 120,000BC. Australia's indigenous people are 50,000BC. Czech Republic clay figurine is 24,000BC. France's cave art is 15,000BC. Japan's pottery is 10,500BC. Jericho is inhabited in 8000BC with 3000 people. Namibia cave art is 8000BC. South American agriculture is 7000BC. Turkey's Catal Huyuk of 5000 people is 6500BC. Sahara rock art is 6000BC.

How old is universe?- 15 billion years. Solar system?- 5 billion. Humanhood?- 5 million. Ancient Age includes Stone Age, longest of human heritage time, 2 million years. In 700,000BC people control fire. In 300,000BC people are communicating with words and gestures. In 37,000BC are tally sticks, carve bones, and simple counting. In 7000BC is representation of numbers and objects on tokens which may have led to writing. In 3000BC is cuniform picture writing and Egyptian hieroglyph writing. In 2000BC Minoans use a form of writing, Linear B.

Ancient Age [beginning – 500BCE] includes Paleolithic and Neolithic. Farming changes Paleolithic hunter to Neolithic farmer able to support larger concentrations of people in cultural activities. In 13,000BC the world's population is 8 million. Then, farming begins and human population increases. In 4500BC India's people are doing rice farming. In 2500BC potatoes and quinoa are first cultivated in South America. In 2600BC sheep-shearing, milking, horse-riding, and ox-drawn plough reach european from middle famili Middle Easterners. In 5500BC Sumerians of Iraq live in cities each with a king, each an independent state. This lasts 1000 years. In 5500BC towns and cities of Egypt unite in a single kingdom forming the world's first country of many nations along the banks of the Nile River. In 3100BC is the unification of Egypt into a state in Africa that is conquered by african Nubians in 751BC. Egyptians and Mesopotamians have a 'knock-on effect' on their regional neighbors that leads to other civilizations arising, the most important is european Greece, which becomes one of the most creative civilizations in human heritage and the home of science and democracy that reference natural law & order prosperity. Ancient religious theist with national prophets of personal prophecy and Ancient cultured naturalist in natural principles of universal experience form two approaches to timeless Truth. Theist references intervening supernatural with priest. Naturalist references universal experience with teacher. We have divine tradition from religious and human tradition from cultured. In natural law and order with cultured comes citizen culture.

<u>PROBLEM ...</u>	<u>take to peaceful solution in knowledge about basic human life with</u>	<u>Ancient Famili</u>
HOMELESS becomes...	loving peace in cradle potential and family Abydos.	a
SAVAGERY [BLOODY RITES OF WARRIOR and PRIEST] becomes...	vital peace in merchant activity.	m
SUPERSTITION becomes...	asking peace in reality over fantasy from everyday intelligent people everywhere.	e
DISHARMONY becomes...	principled peace cultures over chaos in universal experience shared.	r
HUNGER becomes...	intention peace in hunter, fisher, and maize farmers' invironmental survival.	i
Ancient famili experience basic life problems and give Ancients' peace solutions in wisdoms. In 900BCE a cult of Zeus is formed at Olympia. First Olympic event 776BCE is only footrace. Promoting worldwide cease-fire during Ancient games, Olympic Truce upholds peace 1000 yrs		
AMERICAN Homelife © 2003	aBook: Ancient Age basic survival	americanhomelife.org p. 12

Ancients give world famili and basics of life for well traveled intercreative universalInformation generation to live common citizen culture, american homelife. Five Old Worlds create one peace heirloom in expanding culture. It's with US all in cultural democracy to know our Ancient basic legacy. Ancient religious 'by God' and Ancient cultured 'by Nature' are there.

Savage Archaic Worlds' chaos changes to culture in better consciousness. Ancient ancestors take a stand against violence, for peaceful family potential/merchant vitality/everyday enquirer/culture principled/ farmer intent. **Before Common Era (BCE)** our Ancients struggle for strength against violence in human home family potential-vital merchant economy-everyday intelligent person enquiry-principles of culture- intention of farmer with nature home. We live their Ancient theist solution in national prophets of personal prophecy by God written in Vedic and Torah [Bible]. We live their Ancient natural solution in unfolding Nature/Life culture of universal experience with ideas/principles beginning with equality *yang/yin*. Vedic-Bible-*yang/yin* are Ancient artifacts. Five Old Worlds are clearly in unity against violence, and so too must I be if I am to be their heir in Ancient legacy religious and/or cultured. Their truisms taken together create our shared-n-cared timeless treasure of human heritage's basic orientation for normalcy. Common ground for cultural democracy's human heritage is established upon humans' wrestled works and their strong solutions in human agents of change. Common categorical imperative for religious and cultured is respect.

It's a-m-e-r-i Old Worlds that becomes modernity's good global generation, Information generation. *BCE becomes CE..* Ancient famili basics contribute to our common citizen culture. In nature home and in human home we have human heritage, naturally. Non-violence in family/ merchant/ intelligent person/ cultured administrator/ farmer is the singular mark of behavior that separates Archaic chaotic human from Ancient supernaturalreligious and naturalcultured human. To encourage US all we have our shared past in Ancient Famili. In conscious respect for family/ merchant/ enquirer/ cultured administrator/ farmer I do my *d*day, and human heritage goes with me. Principle, self-discipline, and beautiful Life solutions I enjoy from past and take to present in ideas I chose to live that become my eternity in human heritage home. I regard all violence as uncommon, without common sense, without common ground, and without a common tomorrow. I share in unity our Ancient ancestors' commitment and categorical imperative to 'makepeace' by means and dreams.

This lesson is so painfully learned by Chinese with their civil war, the Cultural Revolution. After the violence, the Chinese are still lost. Violence does not bring vision, but rather more loss and confusion. Modern Chinese regain their Ancient ancestral treasure of principle culture and make it inclusive, not exclusive to rich royalty. Patient peace and self-mastery bring strong solutions out of human effort. Ancient peace in me changes chaos to confident culture, naturally.

Every generation blames old generations for all their problems/ fears. Ancient peace is standard reference to better awareness. Ancient famili basics in me and you connect US all in cultural democracy, creating a naturally spirited world of good global gifts of consciousness given.

When we remember our human heritage Ancient ancestors, we can daily do more consciously because we are more surely living in better awareness when nurtured by *basicAncient* principles. In the wholesomeness of good globalization, proudly remember Ancient famili basics. It's not how people bury you. It's how people remember you! Share your human home in homelife for memory and continuance. You have been given the basics in Ancient peace. Now, it's your turn. Make your contribution to your human home in the daily deeds you do with respect for all life.

*Human home finds cultured norms.*

History of human culture is repeated pattern for our theoretical thinking in *AMERI Ages*' memory. Ancient naturalist references natural law & order in universal experience saved in principles.

Ancient theist references supernatural God intervening with national prophets' writings. Meditation cultured and medieval religious find social behavior tolerance-truth-compassion-equality principles. Educant secures physical homelife, returning Greek 'free man's studies' & Ionian thinkers. Republican begins civil homelife, world citizen [american] doing science and self-rule democracies. Informed generation lives universal pacific 'intercreator' interconnecting with nuclear energy and cosmic energy in real and virtual communities .

*AMERI Ages* is the history of humans who find and expand natural cultural democracy in common citizen culture, we call 'homelife'. Who are we naturally? What have we learned?. Where have we obtained our world of ideas? When are the *AMERI Ages*. Why do we need human home heritage in citizen culture? How are we going to obtain pacific intercreative modernity? World citizen culture is written in human story, not only for rich royals of dignity. World citizen culture is written in human story, not other than human story with divine clergy. World citizen culture is written with human original agents of change, not divine agents with efficient clergy saved stories. By learning the long art and story of citizen culture we can better create the level of awareness within ourselves in *basicAncient / socialMeditation / physicalEducation/ civilRepublican / universalInformation* consciousness. In *AMERI Ages* we ameri, all people, join in cultured norms.

'Basic Be...'

<b>A</b> bydos family!	<i>a</i>
<b>M</b> erchant vitality!	<i>m</i>
Truth <b>E</b> nquirer.	<i>e</i>
yang/yin <b>R</b> uler.	<i>r</i>
<b>I</b> ntent of farmer!	<i>i</i>

*wedding vows*

*Potential of human* *african*, beginning in loving cradle and triad Egyptian Abydos

*Vital Merchant* *middle*, giving/ receiving, alphabet/ reading

*Intelligent enquirer* *european* & everyone, bonfire Truth [ without addictions, with open talk]

*In Principle Cultured* *renien*, referencing yang/yin equality of universal experience

*Intention Farmer* *inamerican*, surviving in nature home awareness

Say what is yours from your Ancient famili in living human heritage. In Ancient famili basics take ownership of what is yours. You choose to live basic homelife. So, bring your family/famili to your wedding.

Example:

We are the living legacy of Ancient human famili. We choose to cherish and continue *basicAncient* consciousness.

I [Groom] am *intelligent enquirer* and *principle cultured*.

I [Bride] am *vital merchant*.

We have a 3famili tradition to live. Let it be continued in our marital commitment from this day forth and forever.

*Ancient Origin of Consciousness*

The Origin of Consciousness in the Breakdown of the Bicameral Mind (1976,1990) by Julian Jaynes, Princeton University psychologist is addressing our Ancients' God and heaven. Until late in the 1000 BCE humans have no ability for consciousness, Julian writes, and are automatically obeying the voices of gods. Julian Jaynes' book is new research in the hypothesis of the bicameral mind.

Far back in animal evolution human consciousness does not begin. Consciousness comes out of an earlier hallucinatory human mind. Human consciousness is a learned process that is still developing. It shows how much more thinking we have to do.

Ancient people do not think as we do. They were unconscious. The right hemisphere dominates their brain. Catastrophe forces humans to learn consciousness. Consciousness is a product of human heritage-social history-natural culture that comes from the left hemisphere of the brain.

There are three forms of human awareness, the bicameral or god-run human; the modern or problem-solving human; and the contemporary forms of throwbacks to bicamerality [schizophrenia, hypnotism, religious frenzy, etc.]. These three forms of human awareness have definite distinct physiology of the brain.

There are other books to read that address consciousness. The Mystery of Consciousness is written by John R. Searle. God at the Speed of Light is written by T. Lee, MD Baumann, T. Lee Baumann. Man and His Symbols is written by Carl G. Jung. The Doors of Perception and Heaven and Hell is written by Aldous Huxley. Society of Mind is written by Marvin Minsky. The Prehistory of the Mind is written by Steven Mithen.

Here is an excerpt from the introduction to The Origin of Consciousness in the Breakdown of the Bicameral Mind... "O, what a world of unseen visions and heard silences, this insubstantial country of the mind! What ineffable essences, these touchless rememberings and unshowable reveries! And the privacy of it all! A secret theater of speechless monologue and prevenient counsel, an invisible mansion of all moods, musings, and mysteries, an infinite resort of disappointments and discoveries. A whole kingdom where each of us reigns reclusively alone, questioning what we will, commanding what we can. A hidden hermitage where we may study out the troubled book of what we have done and yet may do. An introcosm that is more myself than anything I can find in a mirror. This consciousness that is myself of selves, that is everything, and yet is nothing at all—what is it? And where did it come from: And why?"

There is a Julian Jaynes Society on the web at [www.julianjaynes.org/bicameralmind.php](http://www.julianjaynes.org/bicameralmind.php) for any and all interested in unfolding human consciousness.

*Ancient is Pharaoh of Moses*

In other than human story, divine heritage by God with literate clergy remembrances doesn't save human story in human heritage with human agents of change. So, it is possible that Moses' miracle Torah [Bible's first five books] divine heritage has pharaoh influence forgotten human heritage. About 1350BCE Amenhotep IV, a misshapen pharaoh, becomes the first man in history to go from belief in many to one god, Aton, the source of universal life to Egypt and world. Before, Aton is the visible disk of the sun, the dispenser of light, love, and joy. Now, Aton is the one god. Amen-hotep [Amon Is Satisfied] changes his name to Akh-en-Aton [He Who Is Serviceable to Aton]. Leaving old capital city Thebes, Akhenaton builds a new capital city Akhet-Aton [Place of

the Effective Glory of the Aton] that is open to sun and without statues. Wife Queen Nefert-Iti helps her husband's struggle against polytheism. While his empire crumbles, he writes poems to God Aton [some in Book of Proverbs, Bible] and fosters 'Amarna style' artistic naturalism, overthrows old gods of Egypt and uses violence. Surely, a kind God Aton being promoted in terror is a contradiction that sadly is repeated by subsequent monotheistic religious crusaders. Akhenaton dispels mystery of divine kingship by allowing informal portraits of his family life. As an agent of change he fails because his message doesn't reach people and doesn't convince most clergy. Following his death, clergy set a pattern for clergy violence when they themselves use terror to destroy Akhenaton's efforts and renegade Aton religion. Militant political activists are not only pharaohs, but now clergy, too. Though date of Israeli Biblical Exodus from Egypt is uncertain, Akhenaton's idea 'God is one' may have influenced Moses, baby of Egyptian bulrushes, whose name is 'child'. Kent Weeks finds in Valley of Kings 'KV5' with 20 children of Great Rameses II 1304-1237BCE, one of whom may be 1<sup>st</sup> son of wife Nefertiti XVIII Dynasty. There's skeletal wound to head possibly of 1<sup>st</sup> son, 30 year old leader of army who in chariots goes after Moses to Sea of Reeds and is killed not by God but in God's name [the 10<sup>th</sup> plague, the other 9 being natural occurrences]. One of Akhenaton's six daughters marries Tut-ankh-Amon. [The Epic of Man by editors of Life, Time Incorporated, 1961:New York, pp. 114-115.] Fifty years after Akhenaton and against wishes of Great Rameses II is Moses, heretic prince of heretic religion, possibly carrying forward Akhenaton's work from God Aton to God Jehovah to God Jesus to God Allah? General education of human heritage isn't clergy work: It simply is not their job. With literate age dignity we ameri can do the work of human story in human heritage with human agents of change in citizen culture, homelife.

*Ancient is Nature Home .*

Ancient human heritage is our human environmental home begun in Ancient famili world with their human contributions to our consciousness in *basicAncient* living. Ancient is heaven home in personal other world after life with God intervening. Ancient too is our interaction with nature environment, our nature home, to Ancients most mysterious, magical, and full of meaning.

**Energy?** fire is element we enjoy to warm us at winter with Ancient north Asians, european [NW] and renien [NE]. Fire means survival. Fire brings light into the dark and often frightening world of a northern winter. Before early Paleolithic ancestors learn to make a fire and use it with skill, human life is dangerously restricted. Indeed, the ability to make a fire separates human from animal, perhaps laying foundation for all other advances in natural literate culture. Only with fire can humans range wide northern latitudes. With fire food is made more digestible with cooking, chip-n-forge weapons are made, and pottery is created. Ice-age human needs fire to put him/her through freezing months. Ancient technology allows humans to survive long-cold-dark winter of North Asia [NW/NE]. Secret of making fire is skill beginning in rudimentary natural laws awareness.

Fire becomes magical. Drift of smoke from solstice fire gives supernatural revelations for the coming year. Midwinter fire customs are winter solstice joys. Shivering humankind huddles in his cave or tiny hut. His supply of food becomes scarce. Wild animals are a threat. Children become weakened from lack of food. As he-wife-child weaken and fad, so too does the sun give fewer hours of daylight and grows smaller and far away. Cold is his only constant, his small fire-the joy. It is kindled by friction between dry sticks, and if lucky slivers of flint. Fire stands between life and death. Fire brings warmth. Fire wards off predators. Fire flickers with life.

Will sun leave sky? Is there anything humans can do to help encourage the sun to return? Is this the time of ending life itself? All is fear-dark-cold-death. Fields, forest, and humans need the sun to return. Bonfires, procession with torches around field, and fiery wheel rolled down hill... help overcome fear. AMERICAN Homelife © 2003 aBook: Ancient Age basic survival americanhomelife.org p. 16

Sun stops in sky/turns around/comes back. It's winter solstice, Dec 21![Evergreen. Constance seen. Sun returns today.] To Ancient North it's miracle, to moderns wonder. Belief: sun responds to ritual fires of humans. Winter solstice is long long known as *the happy birthday* of our solar system star the sun. It comes to be celebrated, too, as the birthday of the famous. Because Hercules, Mithra, Krishna, and Jesus bring light to humans, it becomes their happy birthday too. Established Old Republican Roman Saturnalia is too strongly enjoyed, so God Jesus's birthday is joined to the Old Roman winter solstice joy. Saturn is the Roman god of agriculture and everywhere is found evergreens, garlands, and holly. For Greeks winter solstice is time when Zeus begins anew his eternal battle against Time. In Japan homemakers put on their outside family home door a spray of evergreen, a token to life, eternal life. Native european, too, brings evergreens into caves. NW Asian, native european, see magic in the evergreen, able to protect them from life-snatching spirits. Evergreen and fire are to Ancient NW/NE Asians sacred/magical/worshipful/life-protecting, now a winter natural joy.

Winter fires frighten wild animals, expel harmful spirits, and burn evil and death. *Midwinter fires* ['solstice fires'] are gathered and put over fields to bring spring fertility to earth. Animals are made to go around magical fires and even thru fires to protect them against diseases. Fire does purify: Ancient humans know this natural property of fire. Viking dead receive burial by fire to purify. Many people today have their bodies burned or cremated when they die and on request their ashes scattered in a place they love. With winter our petty problems vanish in the struggle for survival.

The fires in your cave join the fires in the night sky. Night skies are for our Ancients their new story to understand and tell. There they put their heroes of supernatural story. There they put their animals great/small. There they put their kings/queens/doers of deeds for lasting long memory.

Today, we may live in warm houses through out the long winter and never see a flame nor evergreen. Firelight-candelight-bonfire and evergreen return US all in cultural democracy to our Ancient days of magic and superstition. We feel close to our Ancient forbearers and to our nature home. Light a birthday cake candle for each year lived and blow it out to say you have lived and survived another year! We can use energy from the sun in solar power. Solar energy may some day be the main source that warms our homes-heats our water-cooks our food, drives our cars-etc.

Heir?air is the element we enjoy in spring with the inamerican famili. Everyone has seen beautiful birds and winged creatures of the sky. Sky animals spend most of their time searching for food. Birds must eat several times their own body weight every day to survive. Big birds like eagle/ hawk/ falcon/ owl catch fast moving little animals like mice and rabbits to eat. Thousand of sky animals live from the tiny hummingbird of New York to the giant condor of California. There are millions of different kinds of insects, too with wings for flying. Butterflies, dragonflies, damselflies, and ladybugs all live a very short life compared to human, and they spend most of their days on the wing. Sometimes they only have days or even hours to eat, mate, and leave eggs to grow into another generation.

Weather is a vital sky question. Is it safe for fishing? Shall I go to enjoy the water for a swim and bathe. We all join Ancient inamerican when we look up at the sky and feel from the air what the weather will be for that day. Traditional customs forecast weather from moisture in air, shape of clouds, colors in sky, to behavior of animals, etc. Traditional customs of weather forecasting are handed down over generations, long before there are natural laws scientists called meteorologists. Meteorologists employ complicated instruments and calculations for predicting the weather.

Terror of the wind is known to native american. Hurrricanes come to the Americas. It begins in the ocean as a small thunderstorm. Building up over a warm ocean, hurricane sucks in warm air.

When it touches the Americas it's outer circle is devastating winds, but at center called the 'eye' all is calm surprise. Tornadoes, too, called twisters, tear over open lands. Tornado moves faster than hurricane. In minutes tornado can hurl trailers, tear off roofs, take people up into the air, carry a house a long distance from its original place, or drive a piece of straw through tree trunk! Tornado begins in a storm, sucking in warm air, it becomes a column of wild winds. It is Nature's vacuum cleaner sucking up everything in its path into its long funnel of twisting swirling winds. Up...Up...Up... and away.

Native North American people of plains and lakes look up and see golden eagle and other birds and believe they are winged spirits. Algonquin believe birds can make wind by the beating of their wings. Northwestern tribes see the eagle, call it Thunderbird, and believe it's a winged supernatural whose flashing eye is the very lightning. Northern inamericans tell of the Star Country. Here beautiful beings live above earth. Starmaidens may see a handsome guy, come down to earth disguised as a woman, and bring him back to her sky home. Star youth may see a beautiful woman, come down to earth disguised as a man, and bring her back to his sky home. Starpeople can marry humans and have children with them. But, humans missing earth and their own people return to earth, tell about their life with the Starpeople, and then can never go back.

We feel we can fly with the Thunderbird or live in the Sky Country. We feel too the importance of clean heir/air in unpolluted humans and in unpolluted air. Polluting our air is easy. Cigarette smoke in a small room will make us get up from our chair and leave the room. Air can not clean itself. We see the result of our dirty air and aerosol fumes with CFCs in the air hole over the Antarctic every spring in earth's ozone layer. Ozone layer protects us from the harmful rays of sun that cause skin cancer. We need to stop that hole from getting bigger. We see the air as an important part of our nature home. The rain forests can't be cut, for they are an important source of the oxygen we all breathe! Every bit of environmentalism helps including reduce-reuse-recycle waste. Heir/Air is a force to be seriously given human stewardship for human survival.

Ocean?water is the element we enjoy at summertime with african famili because most of our human body is made of water and because humankind comes from mother Africa. We are made of nearly three-quarters water. Earth, our planetary home too has more water than land, nearly twice as much. Summer is sunny warm and we're happy to be alive, at ease, and ready for adventure [even an occasional major migration]. We move from our winter home to our summer home. City families leave for the country and may spend every day in playful swimming leisure. Tide of our body energy is strongest. We feel well and have plenty of food.

Summer is time most modern republics celebrate civil scriptures. The african famili marks the changeover from colonial to independent country. Almost every summer day is set aside to honor one or more country event.

Weekly markets have buyers and sellers engaged in commerce. Entertainers are there to bring joy. Parades, processions, and fairs attract young and old. Water welcomes the thirsty or the swimmer. The sun is high overhead, and the water is warm and welcoming to our skin.

In Ghana during the first week of August there is an Ancient big festival. It is the Yam Festival. It is timed to harmonize with the end of the rainy season. The drummer leads. A young boy follows carrying a large ripe yam to the ceremonial ground. The procession has musicians trilling on woodwind instruments. Chiefs come attired in their ceremonial dress. Children play. Information

generation joins Ancient african in a serious day honoring life, itself, in food staple availability for survival of villagers. The yam is a tuber related to the sweet potato and is to many Africans their food staple. Survival depends on a good yam harvest. Spirits of nature home are given thanks. All eat yams, fish, and nuts at first fruit festival. All eat sharing their food and survival together as one in a village of many.

We are in love with the rivers and oceans. Salty oceans can't be drunk, yet we can get a fine food feast from its swimming fish. The sea has its unpredictable moods, like people, with calm warm welcoming bodies and shining smiling face surfaces or towering arms of frightening waves. Herodotus, a social historian of 500sBCE who visits Africa, writes "There are the living, the dead, and those who voyage on the sea."

Unlike the sea, falling water is fresh and drinkable. Moving water in springs and waterfalls is living water and good for life. Water too is seen by many as closely associated with fertility and childbirth. From Ancient times in Gambia women having fertility problems visit a traditional water pool where crocodiles live and bathe themselves. There women too bathe and pray to their intervening supernatural for a child to be given to them. Today, this custom continues.

Fish are a mystery. They don't live on land like human, but rather spend their constant hours in water. Fish can breathe underwater and spend their whole lives swimming there. We, however, with the sea mammals such as walruses and whales must come up for air ultimately. These are our relatives, for we have come from the sea. Sea mammals are adapted to their water element with smooth bodies and sturdy muscles that let them swim as well as fishes.

Magical stories are told in Africa of great heroes and leaders. A sign of a powerful person is he who can control the elements. Water stories and heroes are magical stories of mystery. Belief in sea monsters is still common. Tidal waves crashing into land kill people and ruin towns. It's not magic, however, when acid rain with so many chemicals in it falls on trees and kills them. Fresh water from falling rain some people collect in barrels and enjoy drinking as in days long ago.

'The Negro Speaks of Rivers- written by african U.S. Langston Hughes, age 17

I've know rivers:  
I've know rivers ancient as the world and older than the  
Flow of human blood in human veins.

My soul has grown deep like the rivers.

I bathed in the Euphrates when dawns were young.  
I built my hut near the Congo and it lulled me to sleep.  
I looked upon the Nile and raised the pyramids above it.  
I heard the singing of the Mississippi when Abe Lincoln  
Went down to New Orleans, and I've seen its muddy  
Bosom turn all golden in the sunset.

I've know rivers:  
Ancient, dusky rivers.

My soul has grown deep like the rivers.

Mountain? earth is the element we enjoy at autumn with the middle families who are the world's first farmers [that in turn allows cities] and who have the first harvest homes. Planting-tending-harvesting reward is lived in care of earth as well as in care for any endeavor or interest humans may do. Harvest homes are soil related as well as endeavors done. Whether crop is little or weighty, harvest home is universally an occasion of joy. What is taken from ground must maintain human through coming difficult days ahead. Once the harvest is done, it is time to rejoice-sing-pray-dance-toast-feast, etc. It can be an intoxicating time for elders. In Ancient times in some places the last stalks of grain the farmer wears and is carried through the village in the good luck he has for inheriting the power of the vegetation spirit. In Ancient time in some other places the last stalks of grain the farmer takes is occasion for him to be rudely treated, for he's feared as being evil. Some Ancients do human sacrifices at harvest to secure continuing future harvests. In Ancient time in some other places the last stalks of grain the farmer takes is given a place of honor in his private home, where he keeps them until its grains can be mixed with the seeds of the next planting. In all lands [not only middle lands] harvest home is joint victory of human farmer, nature home, and Ancient intervening supernatural. Harvest home celebrates achievement.

Mother Earth is an Ancient 5 billion years old, younger than our Milky Way universe. She is the most important of the elements because she is the giver of the harvest home. Many Ancient people naturally think of earth as their first mother, the source of all life. To Hindus of Middle Indian she is Prithivi. To Babylonians of Middle Easterners she is Ishtar. To Ancients worldwide the earth is the mother goddess and sky is the father god. Desiring the Mother Goddess' fruitfulness, Ancient young women praying for a baby or soon to do childbirth press themselves close to the ground. Ancients feel all life comes from our mother the earth. All food people eat comes from our mother the earth. We eat animals that rely too on the earth for their food. Birds get their food from mother earth. Fish get their food from mother earth. The earth is our mother.

Earth is mother's shelter. Underground caves give Ancients their homes. In the earth humans find sheltered treasures of silver-gold-diamonds-coal. In the earth is the mother's animals from little earthworm to bigger rabbits-moles-predators. Earth is the place where we may bury our dead. Ancient Egyptians take idea of burial mounds and expand it to huge pyramid for their hierarchy. Pharaoh is buried in chambers deep inside the earth. Death is a journey to the afterlife. A small spirit passage way is launch for pharaoh's spirit toward the stars of his eternity. To keep him going on his way in the afterlife pharaoh is buried with his favorite foods, wines, and possessions.

Earthquakes are a part of the mother. Usually Mother Earth is gentle and loving. Sometimes she is a terror of destruction. Earth shakes, splits open, and swallows anything above. The Himalayan Mountains from Ancient time to today experience periodically earthquake because subcontinent India is pressing itself into continental Asia. Ancients had no way of predicting earthquakes which moderns have today. After an earthquake people return to rebuild today as before.

Ancient is autumn festival of Israel's Simhat Torah, [or Sukkot a small decorated booth, symbolizing fertile earth]. On Simhat Torah last words of Torah are read and congregation starts again words of Torah for new beginning in Happy New Year, Rosh Hashanah. Divine heritage tells of Torah [1<sup>st</sup> 5 books of Old Testament Bible] inspired 100% 'by God'. Omitting thousands of years of 'ME' human heritage Egyptian stories, and high literacy of Moses [who too may have lived as one of 100 children of Great Rameses II], divine heritage Torah simply makes no interconnections between human heritage and divine heritage. If Moses were an illiterate, then Torah may be 100% miracle. Many times throughout the Ages human /divine traditions intertwine but human heritage advocates are not our divine clergy. They are not paid to do the general education of our human heritage.

In the earth is rooted the tree. In India people see how cutting many trees leads to floods that wash away roads, bridges, towns, etc. Chipko movement begins with women putting their arms around a tree that is about to be cut and telling the woodcutter they must saw through them first. The Chipko [Hug the Tree] movement is popular among Middle Indians.

*Trees,  
eternal attempts  
by the earth  
To speak  
to the listening sky.*

—Rabindranath Tagore

*'Always Ancient'*

Ancient families live on in me always and assuredly:  
african cradle potential and middle merchant vital,  
european Truth enquiry and renien yang/yin equality,  
in american intention of farmer, maize farmer.

We have touched our Ancients' nature environmental home and human environmental home. They approach their world in superstition as well as hints of science, in wisdom that can border on philosophy. With basic Ancient Emperor Fu Shi's announcement of first principle, yang/yin equality, we begin literate natural culture and realize no matter who we are, no matter what generation or Age we are that we too will have good and bad universal experience, forever with us and joined in US all always. Increasing good and diminishing bad is what cultured humans do.

Then, with social Meditation Age the Cultured North brings the skinning natural law and order Nature to full view with Confucius/Buddha social home and Classical citizen social homelife, all who find three more universal principles relevant for humanhood, truth/compassion-tolerance. These with Ancient equality principle are the '4principles' given modernity from the Cultured North for principled freedom living. Taking the '4principles' and putting them to seasonal focus we have:

*socialMeditation* **tolerance** liberty summer  
*socialMeditation* **truth** integrity autumn  
*socialMeditation* **compassion** fraternity winter  
*basicAncient* yang-yin **equality** spring.
