The new story to tell is the human story in citizenship with american heritage and democracy in AMERICAN Homelife®. We are world citizens of global american character/culture. Defined in system of universal principles, american homelife is with universal people who care/share in myriad and daily universal experiences our cosmos over chaos. Global culture citizenship is rational cultural democracy's story that grows humanhood in self-governance and awareness over AMERI 5Ages. As 'human family' *americans*, we live democracy countries, modernity, and ages of dignity in literate nature/ human environmental home. Welcome to the charitable community of citizen culture celebration/ education in spirited ideas PHILOSOPHICAL, often harmonizing with theological clergy religion. Whether I'm natural purist Edison & Ford/natural deist Jefferson & Lincoln /natural theist Washington/FDR, I choose the social liberty-integrity-fraternity-equality FreedomLIFE ideology cultured in homelife, religious in heavenfaith with freedomFaith.

We affirm system of principles for character/culture in world citizen with american heritage/democracy. **In american character:** I'm Old Democrat cosmos asking, Old Republican reason. I'm Thurgood civil justice, Old Rushmore freedom, and human family cry 'good globalize' all the way home, to common/native homes. **In american culture**, [AMERI Ages]: I'm Ancient Age survival, **Meditation free**. I'm science Education, new Republican democracy, and Information generation co-creation, no more dominations.

In Truth We Trust, timeless Truth! Royal caesars rob, finding their Truth in Gold over the common good. Robed clergy find their Truth in God prophetic revelations written in Book of God. We, new republican citizenpeople, find timeless Truth asking rational Book of Life [Nature], even as we may also be religious. These three fundamental powers of rich-rule, clergy-rule, and people-rule have their own different traditions/ authorities/ authentications. As new republican democrats, we must take care of the HUMAN STORY IN CITIZENSHIP. It never was nor will be job of plutocrat/priest to do so. The long art/story of everyday citizenpeople thinking rational and doing common good is in our own hands.
