With Information Age [2000CE- today] we get universal citizen culture- *universalInformation* homelife. *AMERI Ages* is we, the *universalInformation* nuclear age generation. In *universalInformation* awareness we are consciously pacific-centered/ universal principled, inter-communicating/connecting/ creating, and hapi together...cultured world citizen under timeless Truth. We welcome universal productivity in nonliving/ living/ human. *AMERI culture* is me with scram jet & micro chip, Internet technology & two nuclear frontier forces. As Ancient firebringers, I can let unfolding consciousness and Net warm me-n-thee to welcoming pacific public space in bonfire-open-rational talk and working out of ideas, or shaming forbearers lay waste it all. We must use old/new forces responsibly, not in anger/war. We, empathetic citizen civilians, do our good deed each *dday*. We, common sense citizen scientists, ask for superstring theory to unify gravity/quantum forces for space future. Biological/ chemical/ thermal weapons pervert the common good, warning avoidance of dark age or extinction.

Culture is natural, done in principles of Nature's reason with teachers. Religion is supernatural, done in the name of God's revelation with prophets. Plutocrat/ priest hierarchs update. Royals are now global corporation/banker worse than king/queen who care about his/her people. Corporations have one agenda, the bottom line profit. Left alone corps. will have everyone in prison working free for it. Only citizen people of independent democracy countries can control hierarchs by making it/them responsible to citizen people-rule in country, in global cooperations. Old religionist dominates new republican 'under God', not principle nor Truth. In spirited idea-kindly wisdom thought-universal principle is appropriate conversation of cultured including world citizen. Long live '**Universal Homelife**':

Character-culture-commitment is american homelife. I'm american character, Itolerant-Irational-IIIamending-IVrepresenting-Vthanxgiving. I'm AMERI culture, living in universal principles' awareness of Ages: *basicAncient -socialMeditation- physicalEducation- civilRepublican- universalInformation*. I'm commitment, belonging to the long art of human heritage with citizen culture. Be 'hapi together' in global human story of human reps., determinants not in force but in principle. New story is human story of hapi culture.
